

Home Learning – Self-isolation

Please be reminded that as the school is currently operational, our teachers are not expected to provide learning for home in addition to school. This includes the provision of worksheets in paper or electronic copy that are being completed in class. It is important at this time that we also look after our teachers' wellbeing.

As you are aware, as a courtesy to support parents who are self-isolating, we are providing some learning as per the Skoolbag app. Parents/carers will need to set tasks and provide feedback. Learning in this situation cannot be submitted to teachers for their feedback.

If you are using Skoolbag on your mobile phone, it may be convenient to print the learning activities as follows:

Open the activity on your phone

Download the activity on your phone

Print if connected to wifi printer or
Upload to open on a computer via email
